myRatings

```
classDiagram
    class Rater {
        <<abstract>>
    }
    class PlainRater {
    }
    class Ratings {
        <<arraylist>>
    }
    Rater <|-- PlainRater
    PlainRater --> Ratings : myRatings
```

The diagram illustrates a class hierarchy and an association. At the top left is an abstract class box labeled 'movieRecommendaton.raters. Rater'. Below it is a concrete class box labeled 'movieRecommendaton.raters. PlainRater', which is shaded gray. A solid blue arrow points from 'PlainRater' up to 'Rater', indicating inheritance. To the right of 'Rater' is a box representing a collection, labeled 'ArrayList< movieRecommendaton.ratings. Rating >'. A dashed purple arrow points from 'PlainRater' to this collection box, with the label 'myRatings' placed next to the arrowhead, indicating an association.
