

movieRecommendaton.Recommendation
Runner.printRecommendationsFor

```
graph LR; A[movieRecommendaton.Recommendation  
Runner.printRecommendationsFor] --> B[movieRecommendaton.Recommendation  
Runner.printOut];
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'movieRecommendaton.Recommendation' on the first line and 'Runner.printRecommendationsFor' on the second line. The right box is gray with a black border and contains the text 'movieRecommendaton.Recommendation' on the first line and 'Runner.printOut' on the second line.
